GL
Control Plus

SPY PRO

draft & pour solution

These liquor control devices are designed to control liquor. They offer 4 predetermined portions for each of either 1 or 15 distinct price categories and up to 6 digital beer monitors.

These devices operate using tried and true ring coded pourers with berg type metal rings. They also allow for 8 price levels per day, programmed start up and shut down and report printing.

They are quad lingual and offer numerous communication options.
